To the holders of 8.25 per cent. Just Finance Loans & Investments Plc Secured Debenture Stock 2017

Dear stockholder

EXCHANGE OFFER OF NEW SECURED SUBORDINATED DEBENTURE STOCK OF THE JUST LOANS GROUP PLC

The Board is pleased to report that the businesses of the Group including its principal operating companies Just Cash Flow PLC ("JCF"), Just Bridging Loans Plc ("JBL") and Just Finance Loans & Investments Plc ("JFLI") together "the Group" are developing in accordance with our plans.

The existing 2017 8.25% Debenture Stock of Just Finance Loans & Investments Plc is due to mature on 31 December 2017 and the Board is aware that a substantial number of the debenture holders would like the opportunity to reinvest in a new debenture.

The Group and JCF, JBL and JFLI, the Company's main trading subsidiaries, are now entering their next phase of development which is to increase the range of products offered and to intensify the marketing, and increase the loan portfolios. In order to do so, the Group requires additional funds. The Group has been in discussions with a number of financial institutions and the Board is pleased to report that institutional borrowing has increased during 2017 by £23m to just under £30m (£10m of which was received in September) with further significant funds anticipated before the end of 2017 and in 2018. ("**New Facilities**").

The New Facility will enable the Group's loan book to reach the critical mass required for the Group to start making profit. The additional funding will also enable the Group to broaden its product range for UK SMEs. The Group has been working on a banking system to complement its loan products. This will provide customers with all the facilities of a "normal" bank including BACS, CHAPS, foreign currency, standing orders, direct debits etc but with the one exception that we will not take deposits or pay interest. This banking system will be rolled out in the first half of 2018 and we will be seen as a major competitor of the other Challenger Banks such as Monzo, Starling and Atom. There are also plans for the Group to open in other selected European markets as the opportunities arise but this will be financed in local currency in order to reduce any foreign exchange risks.

The Board has therefore decided to offer the holders of the Existing Stock the opportunity to exchange their existing Stock for a secured subordinated debenture stock issued by the Company ("**Exchange Stock**"), with a longer term and with an increased interest rate. The Exchange stock that is offered has already been admitted to trading on the Emerging Companies Market of the Cyprus Stock Exchange, in the same way that the Existing Stock currently is.

The current rate of interest on your Existing 2017 Stock is 8.25% and this will be paid up to the maturity date of 31 December 2017. If you agree to exchange your Existing Stock for Exchange Stock that is repayable on 31 December 2020, the interest payable is a gross 8.75%., The Board believes this rate to be extremely competitive in today's market.

The Exchange Stock enables a change of control of the Group without accelerating maturity of the Stock as well as providing the Group with the freedom to make further or fungible issues of debentures, whether New Stock or otherwise, subject to the terms of any subordination arrangements with senior Lenders.
